## About solacetrades.com

**solacetrades.com is a Venture capital firm that manages a Crypto Hedge fund that invests in Blockchain technology and early token sales. The fund started as a way to reinvent investment strategies for token sales. solacetrades.com only invests in early token sales that pertain to an actual business, and not Initial coin offerings of tokens without interaction of a product or business.**

The company has been across the globe for its services which includes Real Estate, Agriculture, Oil and Gas with also Crypto Currency investments. Cryptocurrencies turned out to be one of the main inventions of the last decade, which had a huge impact on the world financial sector.

This company has been in existence since 2nd February 2019. And we have created a good financial freedom to all our investors.

Some of the projects that interest solacetrades.com are the emerging IPFS ecosystem, Tezos, RChain, PolkaDot, Dfinity and Cosmos. We are not however, looking to invest in any crypto apps. solacetrades.com is looking towards the future and betting on the projects that will best be able to power off web 3

solacetrades.com never did an Initial Coin Offering, but we have received more than \$400 million in assets from several traditional VC firms. Many of the firms are from Silicon Valley which include: Andreessen Horowitz, Abstract Ventures, Founders Fund, Sequoia Capital, and Union Square Ventures.
